

Keystone Snowmobiler

Hello from Maple Summit Snowmobilers,

I had a small computer problem last month so I was not able to make the May paper deadline sorry! We had five members from our club go to the PSSA spring conference that was held this past April. Chuck DeWalt, Dave McCarty, Kerri Schott, Barry Harcum and Todd Harcum. Chuck DeWalt is the President of Maple Summit, Kerri Schott (first woman) President of Laurel Highlands Snowmobile club; Barry Harcum is the President of a new club, Rolling Ridge. This year's meeting was a little different, we had a round table format that let us share a lot of information along with problems and concerns we all have. Unfortunately the group of us were not able to stay for the entire day; we had to get back for our club's last meeting for 08/09 season. Sadly it is time for summer, but the club picnic is coming and lots of trail workdays. Please feel free to visit our website at www.geocities.com/maplesummitsnowriders/ for all the latest dates and information. We would like to thank the DCNR for the great job of grooming this year. These guys take a lot of heat for bumpy trails. This past year they were out early and often, keeping the trails flat and safe. A big THANKS goes out to the Laurel Highlands for their trail workdays. This past fall, the brush was cut back on several trails, GREAT JOB. Last but not least I would like to thank Dave McCarty for all his hard work. This man goes above and beyond everyday for our club. The great relationship we have with Seven Springs, land owners, DCNR and State parks is mainly due to the amount of time Dave spends talking to these folks. He takes the time to help everyone Snowmobiler and Non – snowmobiler. Dave has a lot personally invested to help keep the clubs equipment up and running. When it does snow Dave is on the trail grooming. The Maple Summits groomer is named THE BLUE MONSTER and it takes a lot to keep her on the trail. If Dave is not behind the wheel he is under the hood keeping it moving. THANK YOU, Dave. Have a great summer and THINK SNOW!

Sincerely, Todd Harcum
